GUBA TOUR

In the past it was capital of Guba khanate which was founded in the middle of the 18th century. The unsurpassed beauty of the local mountains was praised by such famous people as Alexander Duma, the Norwegian traveler Tor Heerdal and others. Indeed, the sceneries of Guba are hard to describe with words. It seems nature has collected there the brightest colours – juicy greens of the alpine meadows, white snow caps, rapid transparent-blue mountain rivers, worth visiting, Afurdzhin Waterfall and Tenghi Canyon.

UNESCO has included Khinaliq on its list of historical monuments of global importance, like an open-air museum. Khinaliq called an “ island in the mountains “. Houses built of cobblestones and situated on a slope resemble a multi-storey building. Since Khinaliq has been declared a protected area, it is prohibited to build new houses there.
